PROFESSIONAL SUMMARY

Senior Software Engineer with 4 years of experience architecting and deploying robust, highly scalable enterprise solutions using **Java 17+**, **Spring Boot** and **Microservices**. Proven expertise in engineering high-performance data pipelines with **Kafka**, **NiFi** and **AWS S3**, and automating complex business processes utilizing **Drools Rule Engine**. Adept at managing **Docker** containerized **Kubernetes** deployments and solving complex technical challenges within cross-functional teams. Committed to continuous learning, code reliability and taking end-to-end ownership of core enterprise projects that deliver measurable business impact.

TECHNICAL SKILLS

Languages & Data	Java (8/11/17/21), C/C++, Python, SQL, HTML5, CSS3, JavaScript, TypeScript, JSON, YAML, AVRO
Frameworks	Spring Boot (2.x.x/3.x.x), Hibernate, Angular (10/15/16/17)
Databases	MySQL, PostgreSQL, MongoDB
Messaging & Cloud	Apache Kafka, Apache NiFi, Data JPA, AWS S3
Rule Engine & Testing	Drools Rule Engine, JUnit 4/5, Mockito, PowerMockito, Cucumber, JMeter
VCS, DevOps	Git, GitHub (Actions), Docker, Kubernetes, Jenkins
Tools & Dependency	IntelliJ IDEA, Eclipse, VS Code, STS, Postman, pgAdmin, DBeaver, Maven

PROFESSIONAL EXPERIENCE

SS&C Technologies Jan 2022–Present | Navi Mumbai, MH

Senior Software Engineer Apr 2026–Present

- Scaled critical brokerage workflows to support enterprise-level traffic by architecting and owning end-to-end microservices utilizing **Java 17+**, **Spring Boot 3.x.x**, and **Drools Rule Engine**.
- Achieved real-time data synchronization with zero data loss and dynamic document management by engineering a robust data pipeline and storage architecture utilizing **Apache NiFi**, **Kafka**, and **AWS S3**.
- Reduced regression defects and maintained 90%+ code coverage by establishing rigorous testing standards using **JUnit**, **Mockito**, and **Cucumber**, while standardizing CI/CD deployment practices via **Docker** and **Kubernetes**.
- Accelerated Agile sprint deliveries and enforced clean code standards by mentoring junior engineers and guiding **Angular** front-end integrations with UI/UX teams.

Software Engineer Jan 2022–Mar 2026

- Automated complex business logic and successfully managed 10K+ daily transactions by developing and deploying scalable microservices using **Java 17+**, **Spring Boot 3.x.x**, **Hibernate**, and **Drools**.
- Achieved high-performance data processing and thread-safe resource management by designing optimized **PostgreSQL** schemas, building robust **NiFi/Kafka** pipelines, and implementing advanced **multithreading** utilities.
- Decreased production defects and streamlined deployment cycles by executing rigorous BDD/unit testing across 1,500+ cases (**JUnit**, **Mockito**, **Cucumber**) and leveraging **Docker**, **Kubernetes**, and **Maven** containerization.

Data Analyst Intern, Business Toys May 2021 | Bengaluru, KA

- Facilitated improved decision-making for marketing strategies by analyzing online consumer behavior data to extract actionable **e-commerce website insights**.
- Supported the optimization of promotional offers and predictive analytics by developing comprehensive **data visualizations** to map consumer trends.

- ▶ Successfully developed functional Android applications, including a custom **Music Player** and a **Student Management System**, over a one-month intensive development sprint.
- ▶ Delivered responsive mobile user interfaces and robust backend application logic by utilizing **XML** for UI design and **Java** for core functionality.

KEY PROJECTS

Jobs Internships and Courses Recommendation System.

B.E. final year – 2021-22  [\[PDF\]](#)

Delivered highly accurate and continuously improving opportunity recommendations by developing a **Python-based machine learning** system utilizing Content-Based, Collaborative, and Hybrid filtering algorithms, alongside **NLP/NLTK** for textual data analysis and a continuous feedback loop.

Gesture Control Voice Command over Android Device.

Diploma final year – 2018-19  [\[Link\]](#)

Enabled accessible voice communication for mute individuals by engineering an **ATMEGA328 Microcontroller-based** hardware solution that detects physical hand gestures and transmits the data via **Bluetooth** to an Android device for real-time voice command conversion.

ACHIEVEMENTS & RECOGNITION

First Runner-Up - SS&C Technologies GIDS Hackathon 2024

 Jul 2024

Secured 2nd position out of 40+ teams by developing a highly scalable, template-driven Document Digitization solution using **Vidado** that required only a one-time configuration, enhancing efficiency and enterprise scalability.

RESEARCH PUBLICATIONS

A Comparative Study on Gesture Control Voice Command Over Android Device.

Dickensian Journal, Vol. 22, Issue 6, June 2022.

EDUCATION

Don Bosco Institute of Technology, Mumbai

2019–2022

B.E. in Information Technology, University of Mumbai

CGPA: 8.50

Government Polytechnic Mumbai

2016–2019

Diploma in Computer Engineering, Autonomous Institute

88.71%

Samata Vidya Mandir, Sakinaka

2016

S.S.C., Maharashtra State Board

91.60%

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.

Place: Thane, MH
